www.oscarverbeek.com

I'm a 24 year old student, currently learning about design for human behavior. I am a strong thinker, always creating structure in complex problems. I started out wanting to be a car designer, then found out I want to help people to be their best selves. That's what I design for now, in any context.

Education

- '11 - '13 **International Baccalaureate English A**
- '13 - '18 **Bachelor Industrial Design Engineering @TU Delft**
[Honors programme modules in Personal Leadership and Design Thinking](#)
- '15 - '16 **Minor Automotive Design @TU Delft**
- '18 - now **Master Design for Interaction @TU Delft**
[A new direction: design for human behavior.](#)

Experiences

- '13 - '16 **Various Committees @Study Association I.D**
[As chairman of the Freshman Weekend I was responsible for a 3-day event in which over 200 new students get acquainted with the faculty of IDE and each other.](#)
- '13 - now **Various Freelance activities**
[Including webdesign, branding, animation, and photography.](#)
- '15 - '16 **Exterior Designer @Forze Hydrogen Racing** part-time
[Design and sculpture of the car, later also graphics and headlight modules. Worked in the production team through preparation of molds, carbon layups and final assembly.](#)
- '16 - '17 **Technical Manager @Forze Hydrogen Racing** full-time
[Team planning, well-being, and priority management. Gained a lot of perspective on my own skills and what leadership means.](#)
- '17 - now **Workshop Assistant @TU Delft**
[Helping students build their prototypes. Instructor for lathe and mill.](#)
- '18 - now **Cases @Uber, Mun. of Amsterdam, Mun. of Rotterdam, Rabobank, Zalando, Kone**
[Developing strategies and concepts in a one day format.](#)
- '19 - now **Reframing Budgeting Passion Project** with Frans Dijkmeester
[How can one be wise and happy with the expenses they make? We investigate a new way of interacting with money.](#)

Skills

- Hardware **Lathe, Mill, Lasercutting, 3D Printing, Design sketching, Prototyping**
- Software **Adobe PS/AI/ID/PR/AE/XD, Rhinoceros, Arduino, Figma, HTML/CSS**
- Methods **"Delft Design", Reframing Method, Design Research, Design for Human Needs**
- Language **Dutch, English (near native), German (basic)**
